PROFESSIONAL SUMMARY

UX Engineer whose practice has progressed from graphic design to digital design, front-end development, and human-centered product engineering. Experienced in accessible interfaces, reusable component systems, API-integrated products, and independent full-stack applications. Currently working outside technology while pursuing a return to full-time product work.

PROFESSIONAL EXPERIENCE

Front-End Developer & Digital Integration Specialist
Jan 2025 - 2025

AMA Fight Club

- Redesigned the responsive website and improved mobile UX.
- Integrated Zen Planner lead capture and CRM workflows, ZipRecruiter forms, and QR campaigns.
- Evaluated platforms and digital tools supporting operations and marketing.

Front-End Developer
Dec 2023 - Oct 2024

Asembia

- Developed reusable component architecture and design-system patterns across healthcare platforms.
- Migrated Bootstrap 3 interfaces to Bootstrap 5 and improved prescriber-portal information layouts.
- Integrated REST APIs in a .NET environment and advanced WCAG 2.1 AA-aligned accessibility practices.
- Presented component architecture and product value to executive leadership.

Lead Designer & Front-End Developer
Nov 2021 - Mar 2023

BroadcastMed

- Designed and developed healthcare marketing microsites within a proprietary CMS.
- Created a standardized HTML email system and used Analytics and Hotjar findings to guide UX work.
- Mentored teammates and strengthened code-review and QA practices.

Freelance Front-End Developer
2019

Merck

- Delivered front-end development supporting digital marketing and communications initiatives.

Front-End Developer
2015 - 2016

Verizon Wireless

- Developed consumer-facing digital interfaces and internal tools.

Digital Designer & Front-End Developer
2014 - 2015

KBS&P;

- Combined digital design and front-end development for enterprise clients at a New York advertising agency.

SELECTED PRODUCT INVESTIGATIONS

WithYou

React Native / Node.js / Express / PostgreSQL / Prisma

Designed and developed a relationship-centered application exploring privacy, shared interaction, and user-controlled information visibility.

Gundam Forge

Next.js / React / TypeScript / Supabase / Vitest

Built a deck-building and playtesting application with continuous legality validation, persistence, and heuristic opponent behavior.

DojoNet

Next.js / TypeScript / Tailwind CSS / Supabase

Designing a martial arts learning system supporting progression, reflection, and coaching without reducing learning to task completion.

CAPABILITIES

INTERACTION & PRODUCT

User flows, information architecture, interaction design, prototyping, responsive design, design systems, accessibility

FRONT-END ENGINEERING

React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, component architecture, state management

BACKEND & DATA

Node.js, Express, REST APIs, PostgreSQL, Prisma, Supabase, authentication, real-time systems

QUALITY & DELIVERY

Vitest, Testing Library, Git/GitHub, CI/CD, Vercel

EDUCATION & CERTIFICATION

BFA, Graphic Design / Kean University, Union, New Jersey / 2015

IBM Full Stack Software Developer Professional Certificate / Coursera / IBM / Verified December 2025
