PROFESSIONAL SUMMARY

UX Engineer whose practice has progressed from graphic design to interaction design, frontend engineering, and human-centered product development. Experienced in accessibility-focused interfaces, reusable component systems, API-integrated products, and independent full-stack investigations. Currently working outside technology while pursuing a return to full-time product work; current employer details are withheld until confirmed.

PROFESSIONAL EXPERIENCE

Front-End Developer & Digital Integration Specialist

Jan 2025 - 2025

AMA Fight Club

- Redesigned the responsive website and improved mobile usability.
